Student Rights and Responsibilities

The Administration at Warren County Technical School recognizes that students possess both the right to a free public education and the rights of citizenship. In granting students the educational opportunities to which they are entitled, the school shall provide them with the nurture, counsel, and custodial care appropriate to students' ages and maturity. At the same time, the school will respect the right of each student to equal treatment and equal access to the educational program, the due process of law, freedom of expression and association, and the privacy of his or her own thoughts. Attending the rights guaranteed to each student are certain responsibilities, which include respect for the rights of others and compliance with the policies and regulations of this district. (N.J.S.A. 9:17B-1. N.J.S.A. 18:A 36-20). In addition, The Board of Education recognizes the need for the in-school storage of pupils' possessions and shall provide storage places, including desks, lockers and other areas, for that purpose. Where locks are provided for such storage places, pupils may lock them against incursion by other pupils. *In no storage space provided by the Board of Education shall pupils have such an expectation of privacy as to prevent examination by a school official.* Each year, inspections of student lockers, desks and other storage areas on district property may be conducted. The school principal is directed to conduct, without further notice, the regular inspection of such facilities provided to pupils for the storage of property.

Grievance Procedures

The school district's existing grievance procedure will be utilized to hear any complaint or charge of discrimination. It is the policy of Warren County Technical School to provide equal educational opportunities regardless of sex, race, color, religion, national origin, disability, lifestyle preference, and social or economic status. Academic Program

Procedures for Career Majors

Career and Technical Education is the keystone of education at Warren County Technical School. All students must be enrolled in a Career Major program in order to remain enrolled at Warren County Technical School.

If students wish to change their career major, they have the opportunity to change career majors ONE TIME during their ninth grade year or during the summer before their sophomore year. Because of the intensive nature of the career programs at Warren Tech, no career major changes will be allowed once a student begins their sophomore year.

In order to request a Career Major change, a student must make an official request with his or her guidance counselor. Students will be allowed to shadow up to two different career areas for no more than two days each. Career instructors have the ability to deny a student's request. Once students decide to join a new career major, the move is final and students will not be allowed to shadow or change careers again.

Program Selection

With the assistance of a guidance counselor, using the recommendations provided by their classroom teachers, students will select their courses. Parents are encouraged to contact the counselor if they have any questions regarding course selection. A typical program consists of eight periods of instruction, usually for academics, physical education, one/two electives, and two/three career and technical education. Courses are offered based upon student enrollment. Under-enrolled courses may be cancelled prior to school opening. Students are required to select alternate courses in priority order. Warren County Technical School graduation requirements may meet all college admissions requirements. It is essential that students review the requirements specific to the college or major of their choice. To meet the needs of competitive universities, a challenging academic schedule should include four years of coursework in English, Mathematics, Social Studies, and Science and at least three years of a foreign language. Additional consideration will be given for Honors and Advanced Placement courses.

Course Level Recommendation

Any decision concerning a student's course placement will be made cooperatively between classroom teachers and guidance staff using the following criteria.

- Current academic achievement
- Motivation, study habits, effort, and maturity
- Advanced level classes may have additional requirements

Schedule Changes

A change in a student's schedule must have merit and meaning behind it. Students are encouraged to review their schedule the week before school begins and email any transfer requests to their guidance counselor. After **September 22nd** no schedule changes will be made unless warranted by the Child Study Team or the Administrative team. Seniors will be given first priority.

Preparedness for Class

Students are expected to arrive at each of their classes on time fully prepared with the materials required for the course. This includes the proper writing utensil, homework, notebook and any textbooks required. Students need to be prepared for Physical Education classes with appropriate clothing (gym shorts, t-shirt, sweatshirt, sweatpants, etc.) and proper footwear. Specific attire and safety protection in career and technical education classes is also part of preparation. Classroom teachers have the discretion to dock participation points to any student that does not come to class prepared.

Textbooks

Students are required to return all books to their teachers in the condition in which they were issued and within the prescribed time. Failure to do so will result in fines. If the fines are not paid, schedules/diplomas will not be issued.

Homework Policy

The Warren County Technical School Board of Education recognizes the need for regular homework and class projects, which are essential parts of the instructional process at Warren County Technical School. Meaningful homework and projects are integral to fostering successful academic achievement and student readiness to meet the demands of higher education and the workforce. Quality homework assignments and projects serve a variety of important purposes in effective learning environments including: providing enrichment opportunities, applying skills learned in class, maximizing instructional time, reviewing material before assessment, identifying areas for remediation, providing opportunities for creativity, and the development of writing, public speaking and research skills. Furthermore, homework and class projects help students cultivate effective study habits such as time management, independent learning, note taking, and self-discipline. Homework should provide reinforcement and extension of class instruction, and should serve as a basis for further study and preparation for future class assignments. With that in mind students should expect frequent homework assignments and occasional projects during each marking period of study.

Make-up Homework Policy

- Make-up work should be completed as quickly as possible. Students will have one day for each excused absence to make up homework and classwork assignments.
- **Students must be absent for three consecutive days in order for the Guidance Department to obtain homework from teachers.**
- Parents must call the guidance office at (908) 835-2819 to arrange for homework collection.
- A 24 hour waiting period is necessary in order for the guidance counselors to obtain homework from all teachers.
- When a student is going to be absent for a scheduled event (e.g., driver's test /doctor's appointment), that student is responsible for getting work in advance from his/her teachers.

Final Exams

Final Exams will be administered at the end of each course during a designated finals period at the end of the academic year. Each final exam will be a comprehensive assessment measuring retention of core content of the course and the mastery of learning skills. Students can expect to complete a variety of test items including but not limited to: multiple choice, short answer, essay, reading comprehension activities, and performance based assessments. The final exam is calculated as 20% of the final yearly average for a full-year course. Grades for final exams for ½ year and ¼ year courses are included in marking period grades.

Testing Program

- 1) Freshmen and Juniors must participate in the NJSLA examination corresponding with their course enrollment.
- 2) Students may take the PSAT test for a fee and they must sign up for the test due limited availability. .
- 3) The College Entrance Examinations - Scholastic Aptitude Tests forms are available in the Guidance Office. The student pays all fees.
- 4) All seniors must participate in an exit exam appropriate to their career areas. Failure to do so could result in forfeiture of career certificates of competencies.
- 5) All juniors must participate in the NJGPA test. The NJGPA is required as part of the graduation assessment requirements adopted by the State Board of Education. A minimum score of 725 is required for each component (ELA and mathematics) of the NJGPA. If a junior completed the NJGPA assessment but did not meet the minimum required score (725 or above) in one or both content components, they will be retaking the NJGPA. The graduation assessment requirements for the classes of 2023 through 2025 are available on the Graduation Assessment Requirements webpage at [nj.gov/education/assessment/requirements](https://www.nj.gov/education/assessment/requirements).

Guidance/Student Services

The guidance program in the Warren County Technical School District is an integral part of the total educational program. The program is designed to help each student gain the maximum benefit from the high school experience by fostering self-assessment and consideration of alternative strategies through individual and group counseling. Career and academic planning are important components of the department's services.

The school counselor can help the student evaluate personal strengths, weaknesses, likes, and dislikes, which will assist in establishing and achieving realistic goals. The counselor is trained in interpreting standardized tests, and knowledgeable about providing the most current information regarding the opportunities available in higher education and indicating the projections for future growth areas in the workforce. Counselors consult and work cooperatively with all members of the school staff to facilitate the student's progress.

Although counselors will routinely schedule conferences during the school year, appointments can be made at any time when seeking assistance with personal concerns, researching career opportunities, or wanting to obtain information for the college planning process. Please contact a counselor with any questions regarding the school, programming, or student progress. The guidance counselors are assigned by grade. Ms. Sarte will serve all juniors and seniors. She can be contacted at (908) 835-2820. Mr. Orchulli will serve all freshmen and sophomores. He can be reached at (908) 835-2821.

The Board of Education shall provide instructional services to an enrolled student, whether a general education student in grade nine through grade twelve or special education student age fourteen to twenty-one, when the student is confined to the home or another out-of-school setting due to a temporary or chronic health condition or a need for treatment that precludes participation in their usual education setting, whether general or special education, and if it is determined that the student can maintain satisfactory proficiency in his/her vocational studies while out of school.

If it is determined that the pupil cannot maintain satisfactory proficiency in his/her vocational studies due to a health condition, the student shall be transferred back to the sending district which shall be responsible for home instruction or other appropriate placement.

To apply for this service, a parent must submit a written determination from the student's physician documenting the projected need for confinement at the student's residence or other treatment setting for more than ten consecutive school days or twenty cumulative school days during the school year. The written determination from the student's physician shall be forwarded to the school physician, who shall either verify the need for home instruction or provide reasons for denial. The parent shall be notified concerning the school physician's verification or reasons for denial within five school days after receipt of the written determination by the student's physician.

Further description can be found under Board Policy 2412 on the school's website.

- 3) Each career and technical educator will develop and present safety rules for their shop. These rules will be posted in the classroom and reviewed each year with returning students. All class members and visitors are expected to follow all of these rules to ensure their personal safety.

Students who repeatedly violate safety rules will be removed from participation in shop activities. A mandatory parent/teacher conference will be scheduled before the student will be reinstated to full participation.

These courses can be taken at any time. Seniors wishing to take advantage of this option must receive approval from Guidance that they have met all other graduation requirements and that they are in good discipline standing with the school. In addition to meeting the schools requirements, Seniors must fill out a Warren County Technical School Senior Learning Application, which is available from Ms. Matias in the main office.

Attendance

Attendance Policy

The Warren County Technical School Board of Education requires that the pupils enrolled in this district attend school regularly in accordance with the laws of the State. Prolonged or repeated absences, excused or unexcused, from school or from class, deprive the pupil of the classroom experience deemed essential to learning and may result in the student being returned to his/her home district. Missed hours in a student's career major cannot be replaced with home instruction.

Unexcused absences from school or from classes within the school day constitute truancies and shall be subject to the disciplinary rules of the Board. Repeated truancies may result in further actions.

General Attendance Procedures

On the morning of the first day of absence, parents or guardians are urged to call the absenteeism line at **689-0122 and press 1** to report a child's absence.

- 1) ALL written excuses, including medical, dental, and legal, **must** be presented to the attendance secretary, or his/her designee, within **two (2) school days** after that student first returns to school. If a note has not been received within two (2) school days, the absence will be considered unexcused unless otherwise authorized by administration.
- 2) An excused absence will be granted only with a doctor's note within 48-hours, or other legal documentation as presented to an administrator for a status determination. Notes should be brought to the office before homeroom.
- 3) Any student who acquires **six excused or unexcused absences in a marking period** or a **total of twenty-five excused or unexcused absences** for the year will be transferred back to his or her sending district. Hands-on training time missed in the career academy cannot be replaced with extra homework or make-up assignments. A letter explaining the justification for this change in academic placement will be sent at this time, which outlines the appeal procedure for this decision.
- 4) At the occurrence of six, ten and sixteen **unexcused** absences, a student will receive notification from the Assistant Principal letting him or her know the ramification of further absenteeism. At the sixteenth **unexcused** absence for those less than sixteen years of age, a letter will be sent home, and by legal obligation Warren County Technical School will file truancy charges against the parents. On the 17th day of the unexcused absence, the student will lose all credit for the year and will return to his/her sending district at the conclusion of the year potentially to repeat the grade. A letter explaining the justification for this change in academic placement will be sent at this time, which outlines the appeal procedure for this decision.
- 5) At the occurrence of 15, 20 and 22 TOTAL absences, a student will receive written notification of the total number of absences and the ramifications of reaching 25 **TOTAL** absences.
- 6) After 5 unexcused absences or 10 total absences counselors will develop a corrective action plan together with the student. In addition, students will also be referred to Intervention/Referral Services.
- 7) An attendance appeals hearing can be requested. This constitutes meeting with the attendance appeals committee to discuss and review documentation of the absences. The appeals committee can excuse or omit an absence or leave the record as it stands. The decision of the appeals committee will be reviewed by the Principal upon parent request. The Superintendent's decision is final.

Tardiness

In order for our school to provide an effective educational program, it is important for students to report to school on time.

- 1) School Tardiness – Anyone who is not in his/her assigned homeroom at the second bell at 8:02 is considered late to school. Any student who arrives after 8:02 a.m. must report to the main office to sign in with their student ID and receive a pass. Students who are on "Senior Option/Delayed Start" must sign in at the main office ten minutes before their first scheduled class (*i.e. If your first class is period 2, which starts at 8:55 am, you must sign in at the main office by 8:45 am*).
- 2) Class Tardiness – A student is tardy if he/she is not in his/her assigned class when the bell rings. Tardiness constitutes a level 1 disciplinary infraction.
- 3) Continued tardiness to school may significantly impact students' opportunities to attend field trips or other school sponsored activities.

Guidance Counselors will notify parents of excessive tardiness and its impact on the overall grade.

Morning Arrival Procedures

Upon arrival at Tech, all underclassmen are to report to the cafeteria and wait for the first bell. All food and drink must be consumed in the cafeteria and discarded before homeroom. Students are responsible for cleaning up after themselves.

- * A senior privilege area known as the Senior Court is established in the theater lobby to provide social and wait time for seniors.

Early Dismissal

Early dismissals are discouraged. However, the school will honor medical/dental appointments and extreme emergencies. To arrange for early dismissal a parent must write a letter to the main office specifying the date, time and reason for the request. The note will be followed up with a call to the parent/guardian.

- 1) Early dismissal is an excused legal dismissal from school, but only after a student has completed four hours of instruction.
- 2) No student will be permitted to leave school without this parental authorization. Students must be picked up and signed out by a parent.
- 3) Excused early dismissals may be granted for the following reasons:
 - a) Students who become ill in school and wish to go home must report to the nurse's office for permission.
 - b) Approved college visitations.
 - c) Verified medical or dental appointments.
 - d) Verified appointments for a driving test.
 - e) Required court appearances.
 - f) Death in the Family
 - g) Other reasons of an emergency nature approved by an administrator.
 - h) Approved extracurricular activities

Senior College Visitation

Seniors and parents are urged to visit the college(s) they are considering. However, we recommend visitations be arranged, whenever possible, when our school is closed. It is recommended that juniors visit colleges during our spring recess while colleges are in session. Seniors will be limited to three visitations during the school year; more than three must be approved by administration.

- * A letter from the college acknowledging the visit must be submitted to the attendance secretary to qualify for an excused absence.

Disciplinary Infractions & Consequences

Warren Tech uses a points system for discipline. Students accumulate points after each disciplinary infraction. Disciplinary infractions are assigned levels and points based on the severity of the infraction and the circumstances of the infraction. The administrator handling the infraction will assign an infraction level, points, and corresponding consequences based on the individual circumstances of the infraction.

Administration has final determination and discretion over the level of the infraction and or point value of an infraction. Students will be given due process rights after the allegations have been stated. Parents will be notified of any student discipline referral resulting in a disciplinary action. School Administration uses the discipline policy as a guideline and individual circumstances may result in variations to the consequences outlined in below.

After completion of the program, one point will be deducted for each month a student goes without any further disciplinary infractions.
- Response To Intervention - Any student accumulating **12 disciplinary points** will be referred to Response to Intervention (RTI). Students with 10 total absences or **five** unexcused absences will be referred to RTI.

Athletic Eligibility

Student eligibility to participate in athletic activities shall be established and monitored according to the following guidelines which are in addition to any eligibility criteria established by the NJSIAA:

- 1) The Athletic Director in conjunction with the coaches are directly responsible for monitoring the eligibility of all athletes in accordance with the NJSIAA and Warren County Technical School's Eligibility Guidelines before being cleared to participate in an athletic team.
- 2) All athletes' academic progress will be monitored regularly for the duration of their sport's season. Any student athlete earning an average under 65 will be notified and given two-weeks to improve their grade in the course. During this time coaches will encourage at risk student athletes to seek tutoring opportunities. Following the two week warning period a determination will be made regarding the student's status. If the student athlete is still earning a grade under 65 in the course, they will be removed from athletic participation until they improve their average to a passing grade.
- 3) The Athletic Director will make the final decision with regard to a student's eligibility to play in that season.
- 4) Following the initial sign-up for a specific sport, additional students may join a team within two weeks of the first practice if spots are still available and with approval from the Athletic Director. **Note, there may be delays in allowing the student to participate as all athletic forms need to be reviewed and the athlete needs to be cleared by the Athletic Trainer prior to participation.*
- 5) Any student who is tardy to school and arrives after 10:55am will not be allowed to participate in any athletic activities that day. The student must indicate if he or she plays an in season sport when signing in.
- 6) Any student participating in a sport must complete a minimum of a four-hour instructional day. He/she will not be permitted to leave with a team, should the team's dismissal be earlier than the four-hour time requirement, excluding tournaments.
- 7) An athlete must participate in six practices before participating in a game or scrimmage.
- 8) Any student spending 40 minutes or more in the nurse's office or athletic trainer's office on the day of a game or activity may not participate that day. *It will be the nurse's responsibility to notify the Athletic Director if there is a situation regarding a student's health and participation status as mentioned above.*
- 9) *Any student who does not change out or participate in scheduled Physical Education classes during the school day may be withheld from participation in athletic activities that day, at the discretion of the Athletic Director.*
- 10) Students who are serving an out-of-school or in-school suspension may not participate in any activities.
- 11) All appeals concerning eligibility will be brought to the Athletic Director. If you are unable to resolve your appeal with the Athletic Director, then the student should appeal to the Principal.

Athletic Participation

To participate in sports at Warren County Technical School, student athletes must complete a pre-participation packet and submit it to the athletic office by the appropriate deadline. Fall Sports Deadline - August 1, 2022, Winter Sports Deadline - October 21, 2022, Spring Sports Deadline - February 17, 2023. Failure to submit the forms by the deadlines could result in a student athlete being denied the ability to participate in the sport. The pre-participation packet includes the NJSIAA Physical Form, a Health History

Update Form, Medical Release Form, Concussion Form, Sudden Cardiac Death Form, Opioid Form, NJSIAA Steroid Testing Consent Form, HIPPA Form, and the Consent to Treat Form.

To participate in athletics at Warren Tech, students must have a physical examination from their physician on the NJSIAA physical form found in the pre-participation packet. After submitting the physical form to the athletic office, it will be reviewed by the school physician. An athlete cannot participate in practices or games prior to approval by the school physician.

NJSIAA Steroid Testing Policy

In Executive Order 72, issued December 20, 2005, Governor Richard Codey directed the New Jersey Department of Education to work in conjunction with the New Jersey State Interscholastic Athletic Association (NJSIAA) to develop and implement a program of random testing for steroids, of teams and individuals qualifying for championship games. Any student-athlete who possesses, distributes, ingests or otherwise uses any of the banned substances (per the NJSIAA), without written prescription by a fully-licensed physician, as recognized by the American Medical Association, to treat a medical condition, violates the NJSIAA's sportsmanship rule, and is subject to NJSIAA penalties, including ineligibility from competition. The NJSIAA will test certain randomly selected individuals and teams that qualify for a state championship tournament or state championship competition for banned substances. The results of all tests shall be considered confidential and shall only be disclosed to the student, his or her parents, and his or her school. No student may participate in NJSIAA competition unless the student and the student's parent/guardian consent to random testing
